### Collins

# **Endorsed Resources Catalogue 2023**

For Cambridge Assessment International Education

Collins is proud to be an official publisher of endorsed resources for Cambridge Assessment International Education qualifications. As an endorsement partner, we work closely with Cambridge International to develop a range of trusted and high calibre materials which offer teachers and learners across the world the opportunity to make an informed choice on the best resources for them. Together we strive to help learners think bigger, reach higher and build a strong foundation for a lifetime of learning.

Endorsed for full syllabus coverage

Look out for this logo on the front covers of our endorsed resources. All endorsed resources have been through a detailed quality assurance process, therefore you can be confident that all the learning objectives of the curriculum frameworks and syllabuses have been covered.

#### **Cover Illustration**

Located in Belgium, ACE of Brussels is a family centred, international, English-speaking school community providing education to students from 3 to 19 along the Cambridge Pathway. ACE started with just a

handful of students in 2016 and has continued to grow ever since. It is a Cambridge International School and blends traditional and modern teaching and strong use of technology for individualised programmes of study. If you'd like your school to be featured on next year's catalogue, let us know!

### Collins Endorsed Resources for Cambridge Global Perspectives™

At every stage of the Cambridge Pathway, from Primary up to Advanced level, help students progressively build and develop transferable skills such as research, analysis, evaluation, reflection, collaboration and communication to thrive and succeed at school and beyond.

Get teaching straight away with Collins Cambridge Global Perspectives endorsed resources and easily integrate the lesson plans to the school and classroom needs.

Progression through the different stages enables skills to be enhanced by revisiting and engaging with concepts at deeper levels and in different contexts.

Cambridge Primary (0838) Cambridge Lower Secondary (1129)

Cambridge Upper Secondary (0457/2069) Cambridge Advanced (9239)

Build confidence

Establish critical thinking skills for a global society

Enhance cross-curricular learning

Encourage cross-cultural collaboration

Place academic study in a practical, real-world context

Engage with key topical issues locally, nationally and globally

See pages 7–11 for more detailed resource information for each stage of the Cambridge Pathway.

#### CAMBRIDGE GLOBAL PERSPECTIVES™

# **Collins International Primary Global Perspectives** (0838)

We are working with Cambridge Assessment International Education towards endorsement of these resources to support the curriculum framework (0838) from 2022.

Series Editor: Nick Coates

**Authors:** Rebecca Adlard, Sula Delafuente, Fiona MacGregor, Katharine Meunier and

Daphne Paizee

A six-level course that builds students' Global Perspectives skills through practical exploration and investigates issues relating to the topics within their school, family, surroundings and culture.

#### **Student's Books**

- Develop the six Global Perspectives skill strands through a wide range of topics using a personal, local and global perspective
- Provide students with a variety of sources, with an international focus, to support their learning
- Draw learning together in a final task within each unit and allow students to undertake a piece of research, analysis or an action in their school or learning community
- Provide regular opportunities for reflection and self-assessment

#### **Teacher's Guides**

- Contains everything you need to teach with confidence
- Downloadable and editable lesson plans and worksheets can be adapted to suit classroom needs
- Curriculum framework mapping tables and unit overviews support effective planning
- Prepare learners for a seamless transition to study Global Perspectives at Cambridge Lower Secondary and beyond

#### Cambridge Lower Secondary Global Perspectives (1129)

We are working with Cambridge Assessment International Education towards endorsement of these resources to support the curriculum framework (1129) from 2022.

Series Editor: Mark Pedroz

Authors: Rob Bircher, Noel Cassidy, Mike Gould, Mark Pedroz and Ed Walsh

Empower students to engage with a range of contemporary global issues and perspectives and develop their skills in analysis, collaboration, communication, evaluation, reflection and research.

#### **Student's Books**

- Develop students' transferable skills as they explore contemporary global issues, using a rich range of international sources and examples
- Focus on improving skills with two skill strands per chapter, building them through active learning towards a collaborative final task
- Apply skills students have learned through a group or individual task in the final chapter
- Prepare for the Cambridge Challenges with links in each chapter to the skills and topic focuses

#### **Teacher's Guides**

- Feel confident teaching Global Perspectives with comprehensive and practical teacher support, including ready-made lesson plans, worksheets, an activity bank full of active learning teaching ideas and a scheme of work to help plan for progression
- Chapter overviews show which skill strands, learning objectives, issues and key terms are covered in each lesson, while the Curriculum Framework coverage map shows where topics, learning objectives and challenges from the curriculum framework have been supported
- Fully differentiated lesson plans and worksheets suggest how all learners can be supported to make progress through Extra support and Extra challenge options
- Understand how to assess students' participation and progress with the Assessment for learning guidance and the differentiated Success criteria in each lesson plan

#### CAMBRIDGE GLOBAL PERSPECTIVES™

#### Cambridge IGCSE™ Global Perspectives

(0457/2069)

We are working with Cambridge Assessment International Education towards endorsement of these resources to support the syllabus (0457/2069) for examination from 2025.

Authors: Ana Carolina González, Mike Gould, Barbara Miller and Adrian Ravenscroft

Develop students' skills and help to prepare them for assessment as they explore contemporary global issues, rich international texts, data and case studies. Offers full coverage of the Cambridge IGCSE and O Level Global Perspectives syllabuses.

#### **Student's Book**

- Communicate the excitement of Global Perspectives and jump straight into a collaborative research project
- Take an active, enquiry-based and reiterative approach to skills development
- Support students to analyse, evaluate and respond effectively to given sources and help to prepare for written examinations
- Help students to tackle independent projects with confidence
- Show students how to progress and improve their work using models and annotated examples
- Encourage reflection through the structured Reflective plenary prompts in each unit and the Check your progress and Next steps features at the end of each section
- Suitable for learners who are new to Global Perspectives or for those who have studied it at Cambridge Lower Secondary

#### **Teacher's Guide**

- Feel confident teaching Global Perspectives with ready-made lesson plans, worksheets and an activity bank full of active learning teaching ideas
- Plan for progression with a full scheme of work
- Understand how to assess students' participation and progress with the differentiated Success criteria in each lesson plan
- Help all students make progress with the Extra support and Extra challenge differentiation points

# Cambridge International AS & A Level Global Perspectives and Research (9239)

These resources are **endorsed** by Cambridge Assessment International Education to support the full syllabus for examination from 2023.

Series Editor: Mike Gould

Authors: Mike Gould, Lucinda Misiewicz, Mike Morris, Lucy Norris and

Clair Rawlingson

Encourage critical thinking, self-reflection and independent thought and provide students the opportunity to engage with key global issues.

#### **Student's Book**

- Allow students to develop key skills, consider themes and issues of particular relevance to their area of interest and apply them to topics of global significance
- Develop effective research skills with guidance on areas such as how to choose a topic and how to write a report
- Offer language support for non-native English students in academic English and presentations
- Guide students through the critical path with useful feature boxes
- Provide practical examples to help with planning, researching, structuring and presenting a written report
- Develop communication and collaboration skills with team projects

#### Workbook

- Make use of practice exercises which are linked to the Student's Book
- Encourage students to take control of their learning with useful notetaking and reflection sections
- Assist learners with planning and time-keeping
- Allow students to develop a personal working portfolio to encourage self-reflection

#### **Teacher's Guide**

- Gain inspiration from lesson suggestions and additional support information for each section
- Allow scope for students to understand and develop effective research skills
- Offer practical examples and explanations for areas of interest

#### CAMBRIDGE GLOBAL PERSPECTIVES™

Key advice boxes give brief, concise guidance on challenging The unit focus shows learning aims areas of the syllabus or core approaches to research or writing and mapping to the Critical Path think about and research further. Further research may include a combination of activities: reading, viewing, listening or discussing your findings, queries and thoughts with others. Look at the sections a student, Jen, is using as the outline for her prespiration scare. 8.4 Organising your argument b) Identify which sections you can say something about in relation to your problem/solution, and those that are less clear.
c) One way you can test your readiness to present is to try out these alternative ways of getting your 'story' across. Work with a partner. Adapt or use the presentation structure above to complete one of the following tasks:

Micro-Deg your presentation story in 10 characters (set up a §).

Walk and talk - tell your presentation story on the move and record a draft version.

Record the highlights of your presentation story as a trailer (audio or visées). communicate the strengths and weaknesses of arguments from all perspectives evaluate how varied the team solutions are. To fulfil the team project brief, it is necessary to identify the team's progression through the tasks required when creating a successful presentation. You will receive the tasks required when creating a successful presentation. You will receive the task of the successful presentation of the surface of the creating the problem desired for the presentation of the surface of the control of the projection. Since you are earlier spiloring a unique regional perspection, proposed vary of solid per problem desired to endoughted different. Another surface in the received the properties. Other reasons to check in some different, which were proposed only of solid proposed only of solid proposed only of the reasons to check in with your team include looping and other on text, and sharing idea, Josepholge or skills. More significantly, people learn better when they communicate their arguments and develop, reflice and review ideas with others. video). Sketch-note or storyboard your presentation story. d) Work with a partner from another team to outline your presentation. Take it in turns to be each other's 'non-specialist audience' and clarify any points that are unclear. Short starter activities get students thinking Discuss: Which stage(s) of the team development process have you been through? Which stage(s) are you at now? Check back with the diagram on page 129. C Key terms about what they rationale: a reason for doing something (e.g. why you chose your particular global perspective in relation to the local problem, and how it complements tho of others) will learn You are ready to start thinking about how to present your ideas. The language you need to structure the oral (spoken) content of your presentation is focused on in Unit 8.5 and the issual content in Unit 8.5 and the leous of this section on the treats for your slides. Use these success criteria to evaluate how effectively you communicate your ideas on presentation slides:

Legability: Can you read the words from the back of the room? Is the font easy to read? It is there too must read?

Clear expression is the language accurate? Is it appropriate for the audience? Quick, accessible tasks help students Activity 1: Organising ideas to tell the story of your check knowledge instantly a) Read the advice below It is useful to begin organising your arguments into a coherent narrative, or story. O way of doing this is to think about what you will say in each section of a presentation More importantly if you early we decide then you have identified what you need to

Key terms and language support

When describing learning styles or attributes, we often use words with useful prefixes to distinguish between similar ideas or meanings – for example, <u>interpersonal</u> in which inter means "between".

Someone who works well in a team has good interpersonal skills (good 'between people' skills).

Task 4

Look up the prefixes in the words below and use them to work out what each phrase means.

Do they have positive or negative connotations?

intrapersonal skills interdependent group members anti-social behaviour student who is extrovert or introvert

Reflection

Think about yourself as a learner again. How has your knowledge of the syllabus changed between first hearing about it and completing this unit? What were the key factors that helped you gain knowledge and understanding of it?

Sample Page from AS & A Level Workbook

Activities develop students' work and build on the practical skills learned in the Student's Book

Where have I heard about this?

Where does my thinking and knowledge come from? Does everyone think like this? Why/why not? How would I find out more information about this?

© HarperCollinsPublishers Limited 2021

# **Collins International Primary Maths** (0096)

Second Edition

This series is **endorsed** by Cambridge Assessment International Education to support the new curriculum framework (0096) from 2020. The Progress Books have not been through the Cambridge International endorsement process.

Series Editor: Peter Clarke

Authors: Caroline Clissold, Paul Hodge and Lisa Jarmin

Offer full coverage of the new Cambridge Primary Mathematics curriculum framework and support best practice in primary maths teaching.

#### **Student's Books**

- Provide an exciting theme with lessons based on a 'big idea' which is anchored in a real-life international context
- Help students to develop their Thinking and Working Mathematically skills
- Offer opportunities for group and individual learning

#### Workbooks

- Challenge students with three levels of practice and knowledge consolidation
- Develop sense of self-study and discipline
- Offer an opportunity for personal reflection on progress

#### **Progress Books**

 Allow learners to apply what they have learnt and demonstrate mastery and understanding of mathematical concepts

#### **Teacher's Guides**

- Ensure teacher professionalism and autonomy
- Supplement lessons with a wealth of digital assets including tools and games to make maths lively and engaging, only available on the Extended Teacher's Guide in eBook format

Supports Cambridge Global Perspectives™ with activities that develop and practise key skills.

#### **MATHEMATICS**

# **Cambridge Lower Secondary Maths** (0862)

Second Edition

This series is **endorsed** by Cambridge Assessment International Education to support the new curriculum framework (0862) from 2020.

Series Editor: Alastair Duncombe

**Authors:** Belle Cottingham, Alastair Duncombe, Rob Ellis, Amanda George, Claire Powis and Brian Speed

Develop students' maths mastery and confidence with this fully updated Lower Secondary Maths course offering comprehensive coverage of the new curriculum framework. A strong emphasis on *Thinking and Working Mathematically* is integrated throughout.

#### **Student's Books**

- Offer worked examples with clear and detailed explanations to build learner independence
- Provide students opportunities to review and consolidate learning and reflect on their progress
- Develop Thinking and Working Mathematically skills, enabling learners to gain competence and confidence in maths

#### Workbooks

- Enable learners to fully master a topic before moving on with a variety of questions
- Support students in their own work with pointers and pictorial representations included
- Can be used in class or as homework to support secure learning

#### **Teacher's Guides**

- Plan teaching effectively with clear learning objectives throughout the course with guidance provided
- Promote and assess the Cambridge Thinking and Working Mathematically characteristics through the course
- Ideas for starter activities and discussions, notes on common errors, support and extension ideas and end-of-chapter topic reviews included

Supports Cambridge Global Perspectives™ with activities that develop and practise key skills.

Check readiness to start with prerequisite knowledge list and topic

Engage learners with group and pair activities to awaken mathematical curiosity

Build mathematical skills and confidence with 'Thinking and Working Mathematically' characteristics through specially designed activities

15.0 Getting started How good are you at estimating area? Decide in your class on a rectangular area to measure, like a table or a notice board. Ask your teacher to measure it for the class. This is your new measure of area, one table! ....... ......... Each member of the class should estimate how many times the table or notice board will fit onto the floor. Now ask your teacher to measure the floor to find its area. Divide this by the area of the table or notice board to see how many would fit onto the floor. See who is the best estimator. Table Table Table Table Table 15.1 Converting between units of area Thinking and working mathematically activity A square has sides measuring 4 cm. Find the area in cm<sup>2</sup>. Convert 4 cm to millimetres and then find the area of the square in mm<sup>2</sup>. Draw some rectangles and find their areas in cm² and mm². Make a conclusion about how to convert an area from cm<sup>2</sup> to mm<sup>2</sup>. Predict how to convert an area from m2 to cm2. Explain your prediction to a partner  $1 \text{ cm}^2 = 100 \text{ mm}^2$ Large areas, such as fields, are measured in hectares (ha).  $1 \text{ m}^2 = 10 000 \text{ cm}^2$ 1 km<sup>2</sup> = 1 000 000 m<sup>2</sup> A hectare is an area of land equivalent to a square measuring 100 m by 100 m. Worked example 1 1 hectare = 10 000 m<sup>2</sup>. a) Convert 0.28 cm² to mm² b) Convert 13 600 cm² to m² a)  $0.28 \text{ cm}^2 = 0.28 \times 100 \text{ 1 cm}^2 = 10 \times 10$ Hectares are used to measure areas of land. To convert cm² to mm², you multiply by 100. Some countries also use acres as a unit of land area. **b)** 13 600 cm<sup>2</sup> = 13 600 ÷ 10 000 To convert cm² to m², you divide by 10 000. = 1.36 m<sup>2</sup>

eBook

Authors: Chris Pearce and Isabel Marsden

Provide in-depth coverage of every aspect of the revised Cambridge IGCSE Mathematics syllabus (0580/0980) and support and challenge students with the Core and Extended content together in one book.

# Collins Cambridge IGCSE<sup>Th</sup> Math S STUDENT'S BOOK Also for Cambridge IGCSE\* (1-1)

#### **Student's Book**

- Develop problem-solving skills with flagged questions that require students to apply their skills, often in real-life, international contexts
- Grow confidence working without a calculator with clearly labelled questions and exercises
- Familiarise students with a mix of structured and unstructured questions throughout
- Emphasise the relevance of maths with Why this chapter matters sections showing maths in everyday life or historical development
- Consolidate understanding with tried and tested questions in extensive practice exercises and detailed worked examples
- Help learners understand complex mathematical terminology with a clear key term definitions glossary

#### **Teacher's Guide**

- Deliver a fresh approach with content fully updated for the revised syllabus and assessment
- Detailed three-part lesson plans include clear syllabus references, common mistakes and remediation, and useful tips
- Raise standards with extra practice sheets with consolidation and extended questions
- Supply ready-made homework for every lesson with printable and editable homework worksheets
- Personalise the course with downloadable Word and PDF files to accommodate the school's needs

Cambridge IGCSE™

Additional

# Cambridge IGCSE™ Additional Maths

(0606/4037)

Second Edition

We are working with Cambridge Assessment International Education towards endorsement of these resources to support the syllabus for examination from 2025.

**Authors:** David Bird, Su Nicholson, Claire Powis, Peter Ransom, Trevor Senior, Brian Speed and Colin Stobart

Building on Cambridge IGCSE Mathematics, this course tests students' initial understanding and prepares them for Additional Maths content. This course also

supports Cambridge O Level.

#### **Student's Book**

- Consolidate understanding with tried and tested questions in extensive practice exercises and detailed worked examples, with tips on how to tackle tricky content
- Develop confidence working without a calculator with clearly labelled questions and exercises
- Help students prepare for assessment with review questions at the end of every chapter
- Support students in developing problem-solving skills with flagged questions that require them to apply their skills and understanding
- Emphasise the relevance of maths in everyday life with Why this chapter matters sections
- Deliver a fully international course with international examples, contexts, names, currencies and locations
- Provide self-assessment opportunities with progression checklists at the end of every chapter

#### **Teacher's Guide**

 Provide full support and guidance for teaching the revised Cambridge IGCSE Additional Mathematics syllabus 1.2 Composite functions Advice and Tips Consider the two functions:  $f(x) = (x + 2)^2$  and g(x) = 3xIf you evaluate f(4) as 36 and then used this as the input to g(x), This combination of f(x) and g(x) is written as gf(x). In cases like  $f[x] = \{x + 2\}^2$ g(x) = 3xgf(4) = 108 but note that fg(4) = 196from these two examples, you should see that you must carry out the right-most function followed by the next function to the left. Example 3  $f(x) = 2x^2 - 4$  and g(x) = 3x - 1Find: a fg(4) a g(4) = 3(4) - 1 = 11 **b**  $f(5) = 2(5)^2 - 4 = 46$ c g(3) = 3(3) - 1 = 8 $f(11) = 2(11)^2 - 4 = 238$ g(46) = 3(46) - 1 = 137g(8) = 3(8) - 1 = 23You can create a single expression for a composite function Example 4  $f(x) = 2x^2 - 4$  and g(x) = 3x - 1Find fg(x) and gf(x)fg(x) = f(3x - 1) $gf(x)=g(2x^2-4)$  $=2(3x-1)^2-4$  $=3(2x^2-4)-1$  $=6x^2-12-1$  $=2(9x^2-6x+1)-4$ 

 $= 18x^2 - 12x + 2 - 4$  $= 18x^2 - 12x - 2$ 

1.2 Composite functions

Helen Ball, Chris Pearce Series Editor: Dr Adam Boddis

These resources are **endorsed** by Cambridge Assessment International Education to support the full syllabus for examination from 2020.

Series Editor: Dr Adam Boddison

**Authors:** Louise Ackroyd, Tom Andrews, Helen Ball, Chris Chisholm, Jonny Griffiths, Michael Kent, Sharon McBride

and Chris Pearce

This five-book series builds students' key mathematical skills and inspires them to pursue STEM (science, technology, engineering and mathematics) careers and further study routes.

#### **Student's Books**

- Cover the complete content of the syllabus in five books:
   Pure Mathematics 1, Pure Mathematics 2 & 3, Statistics 1,
   Statistics 2 and Mechanics
- Develop the key skills of mathematical modelling, problem-solving and communication through dedicated questions and teaching
- Help to prepare students for assessment with exam-style questions and carefully selected Cambridge past paper questions
- Assess readiness with prior knowledge checks and end-of-chapter summaries which test understanding
- Offer plenty of practice opportunities with clear explanations and worked examples on each topic with full workings available for each answer
- Provide clear progression from Cambridge IGCSE Mathematics
- The Mathematics in Life and Work theme throughout shows students how maths is used in a range of careers and further study routes

Cambridge International AS & A Level Further Mathematics

Further Mechanics

STUDENT'S BOOK

These resources are **endorsed** by Cambridge Assessment International Education to support the full syllabus for examination from 2020.

Series Editor: Dr Adam Boddison

**Authors:** Anthony Alonzi, Tom Andrews, Helen Ball, Chris Chisholm, Jonny Griffiths, Yimeng Gu, Michael Kent, Chris Pearce and Patrick Wallace

With a clear focus on *Mathematics in Life and Work*, this four-book series builds the key mathematical skills and knowledge that will open a wide range of careers and further study.

#### **Student's Books**

- Cover the complete content of Further Pure Mathematics 1, Further Pure Mathematics 2, Further Probability & Statistics and Further Mechanics with clear references to what students will learn at the start of each chapter
- Set mathematics in real-world contexts that emphasise practical applications and career paths, with a Mathematics in Life and Work theme for each chapter
- Showcase how mathematics is relevant to different roles with inspiring case studies and discussion activities
- Help prepare students for assessment with exam-style questions and carefully selected Cambridge past paper questions
- Build advanced skills with in-depth explanations for deep understanding, practice for fluency, and probing questions to develop flexible problem solving
- Provide clear progression to develop confident, independent and reflective mathematicians through extension questions and group discussions

# **Collins International Primary Science** (0097)

Second Edition

This series is **endorsed** by Cambridge Assessment International Education to support the new curriculum framework (0097) from 2020.

Series Editor: Karen Morrison

**Authors:** Tracey Baxter, Sunetra Berry, Pat Dower, Helen Harden, Pauline Hannigan, Anita Loughrey, Fiona MacGregor, Emily Miller, Jonathan Miller, Karen Morrison, Daphne Paizee, Anne Pilling, Pete Robinson, Phillipa Skillicorn and Tracy Wiles

Spark scientific curiosity from a young age with this sixlevel course through an enquiry-based approach and active learning. The series is organised into four main strands: Biology, Chemistry, Physics and Earth and Space.

#### **Student's Books**

- Offer differentiated activities for each unit and continuous assessment throughout
- Help pupils to actively learn through practical activities that don't require specialist equipment or labs
- Deepen and enhance the delivery of scientific skills with Thinking and Working Scientifically section

#### Workbooks

- Provide opportunities to deepen understanding and build on prior knowledge
- Include language development activities to help build scientific vocabulary

#### **Teacher's Guides**

- Deliver consistent lessons with clear lesson plans as well as continuous assessment opportunities
- Slideshows, video clips, additional photographs and interactive activities are included in the Extended Teacher's Guides, only available as eBooks

Supports Cambridge Global Perspectives™ with activities that develop and practise key skills.

#### SCIENCE

Build Science vocabulary with key words 'post-its'

Active learning underpins all aspects of teaching within the resources

Photo-rich spreads show science in real-life contexts

Topic summary for concise synopsis and continuous learning

#### **Cambridge Lower Secondary Science** (0893)

Second Edition

This series is **endorsed** by Cambridge Assessment International Education to support the new curriculum framework (0893) from 2020.

**Authors:** Heidi Foxford, Aidan Gill, Amanda Graham, Mark Levesley, Chris Meunier, Beverley Rickwood, Nigel Saunders, Sheila Tarpey, Dorothy Warren and Gemma Young

Build a strong foundation in scientific skills and key concepts with plenty of suggested practical investigations and integrated active learning, whilst providing comprehensive coverage of the new Cambridge Lower Secondary Science curriculum framework.

#### **Student's Books**

- Support students in their language needs with all key words clearly defined on the relevant page in the Student's Book
- Check understanding, consolidate learning and prepare for assessment with end-of-chapter and end-of-stage reviews
- Challenge and stretch students with differentiated questions for each topic, by linking to history, development, application and impact of science around the world

#### Workbooks

- Offer a full range of questions for every topic in the Student's Book
- Provide regular practice with supportive worked examples and writing frames
- Use flexibly for lessons, homework or additional practice

#### **Teacher's Guides**

- Deliver a fresh approach with carefully constructed learning outcomes and detailed lesson plan ideas
- Full support for practical work, with student sheets and comprehensive technician's notes available
- Answers to Student's Book and Workbook questions provided

Supports Cambridge Global Perspectives™ with activities that develop and practise key skills.

10 4

Features at the start and end of topics encourage learners to reflect on their understanding and self-evaluate their progress Key terms, definition boxes and a glossary provide support in language needs

Key terms

vapour.

condensation: process

evaporation: process in

which water molecules gain enough energy to escape from the surface

of liquid water and form

precipitation: process in which water droplets

in the air grow large enough that they fall to the ground as rain, sleet, snow or hail.

in which water vapour molecules are cooled and gather to form liquid water droplets.

#### Chapter 10 . Topic 4

rock form a rock cycle

#### The water cycle

#### Learning outcomes

- . To describe the Earth's physical processes that involve water and how they form a cycle To understand a model of
- the Earth's water cycle

On Earth, water evaporates, condenses and precipitates (falls as rain) Describe how a model helps us to understand ideas in science The formation and erosion of different types of rock form a rock cycle use models, including diagrams, to describe processes and explain ideas in science

#### Evaporation, condensation and precipitation

10.23 Evaporation, condensation and precipitation

Here are some of the processes that involve water on Earth (figure 10.23).

- Evaporation is the process where some water molecules at the surface of a lake or ocean gain enough energy to break free from the surface. This causes water vapour to be present in the atmosphere.
- Condensation is the process where water molecules in the air lose energy so that they gather together to form droplets of liquid water. This process leads to the formation of clouds.
- Precipitation is the process where water droplets in the air grow large enough so that they fall to the ground or ocean surface as liquid or solid water.

Evaporation from the ocean increases when warm air blows across the water surface. The winds carry the water vapour across the ocean and sometimes over land. As the warm air rises, it cools, which leads to condensation. In particular, when winds blow warm, wet air from over the ocean onto areas of mountains, the air is forced upwards and cools within This is why cloud often from over the variety of the force of the program quickly. This is why clouds often form over mountains near the sea.

The type of precipitation depends on the air temperature. If the temperature is above  $0^{\circ}$ C then the water droplets stay liquid and form rain. If the temperature is at or below  $0^{\circ}$ C then the liquid droplets partially or completely freeze to form sleet, snow or hail.

In Section 10.3, you considered which gases mix to make up the Earth's atmosphere. The percentages of each gas were for dry air. Dry air means 'air that contains no water'. In reality, the air around us will nearly always contain some water vapour. The amount depends on how much water evaporates into the air, and how much condenses to form precipitation that falls out of the air. This amount is different at different places on Earth, and the amount changes at each place with time, due to the local climate and weather.

- Where does the energy come from that causes water in the oceans to evaporate?
- Sometimes the air temperature is below 0 °C but the ground temperature is above 0 °C. Explain what happens to water that precipitates as snow or hail when it reaches the ground.
- Look at figure 10.23. Make a sketch copy of the diagram and add arrows to show how evaporation, condensation and precipitation link together to move water from oceans to the air and back to the oceans.
- Look at figure 10.23. Use a map of the Earth to find the Sahara Desert. Explain why places like the Sahara Desert remain so dry.

#### Water that falls on the surface of Earth

Some of the water that falls as precipitation ends up back in the oceans. We call water stored in the oceans open water, because it is not surrounded by land or ice and can move freely.

The Earth and its atmosphere

**Biology** (0610/0970)

**Chemistry** (0620/0971)

**Physics** (0625/0972)

These resources are **endorsed** by Cambridge Assessment International Education to support the full syllabuses for examination from 2023.

Authors: Susan Gardner, Sam Goodman, Sue Kearsey, Mike Smith and Chris Sunley

Provide complete coverage of the updated Cambridge IGCSE Biology, Chemistry and Physics syllabuses for examination from 2023. This course is packed full of questions, in-depth content, practical investigative skills features and more.

#### **Student's Books**

- Engage students with exciting science presented in accessible language
- Establish and build on prior knowledge with a quick recap of what students should already know at the start of each unit
- Build and apply the skills needed to understand and carry out practical investigations
- Help students to be fully prepared for assessment with lots of practice questions, including short text-related questions and worked examples
- Encourage students to take responsibility for their learning using the endof-unit summary checklists

#### **Teacher's Guides**

- Deliver the syllabus with confidence through comprehensive support including flexible topic-based teaching and learning strategies
- Save time with lots of ideas for practicals, activities and worksheets
- Get started quickly and easily with straightforward set-up and intuitive navigation
- Help medium- and long-term planning with a clear overview of each topic and links to other topics highlighted

# Cambridge IGCSE™ Co-ordinated Sciences

(0654/0973)

Second Edition

We are working with Cambridge Assessment International Education towards endorsement of the Student's Books to support the syllabus for examination from 2025. The Teacher's Guide will not go through the Cambridge International endorsement process.

**Authors:** Malcolm Bradley, Jackie Clegg, Susan Gardner, Sam Goodman, Sarah Jinks, Sue Kearsey, Gareth Price, Mike Smith and Chris Sunley

Spark scientific curiosity by putting science in context. Carefully developed features, including practice questions, worked examples and key terms, build knowledge and skills.

#### Student's Books

- Develop students' practical science skills with investigative tasks and deepen understanding with Science in Context sections
- All extended material covered and clearly differentiated
- Refine exam technique with practice questions, example answers and commentary
- Support self-assessment and reflection with questions throughout, knowledge checks, key terms and end-of-topic checklists

#### **Teacher's Guides**

- Start teaching straight away with effective lesson plans, lists of resources, clear objectives and outcomes and notes on common misconceptions
- Match lessons to learning outcomes by using the detailed scheme of work, providing a comprehensive overview of the course
- Overviews of each topic and links to other topics highlighted to assist with medium- and long-term planning
- Teach practical and investigative work with confidence using worksheets which take students step by step through planning, carrying out and writing up

#### Cambridge IGCSE™ **Combined Science** (0653)

Second Edition

We are working with Cambridge Assessment International Education towards endorsement of the Student's Books to support the syllabus for examination from 2025. The Teacher's Guide will not go through the Cambridge International endorsement process.

Authors: Malcolm Bradley, Jackie Clegg, Susan Gardner, Sam Goodman, Sarah Jinks, Sue Kearsey, Gareth Price, Mike Smith and Chris Sunley

Carefully developed features, including plentiful questions, worked examples and key terms build firm scientific knowledge and develop practical skills.

# Cambridge IGCSE™ Combined Science

#### **Student's Book**

- Develop students' practical science skills with investigative tasks and deepen understanding with Science in Context sections
- Help students reach their full potential with clearly differentiated extended material
- Refine exam technique with practice questions, example answers and commentary
- Support self-assessment and reflection with questions throughout, knowledge checks, key terms and end-oftopic checklists

#### **Teacher's Guide**

- Pick up and teach with effective lessons plans, lists of resources, clear objectives and outcomes and notes on common misconceptions
- Match learning objectives and outcomes for each lesson to the detailed scheme of work, providing a comprehensive overview of the course
- Overviews of each topic and links to other topics highlighted to assist with medium- and long-term planning
- Teach practical and investigative work with confidence using worksheets which take students step by step through planning, carrying out and writing up

long chains of glucose molecules.

Protein molecules are made up of long chains of amino acids linked together. There are 20 different kinds of amino acid in plant and animal cells, and they can join in any order, in long chains, to make all the different proteins within the plant or animal body. Examples include the structural proteins in muscle, as well as enzymes that help to control cell reactions.

#### **ENVIRONMENTAL MANAGEMENT**

#### Cambridge IGCSE™ Environmental Management

(0680/5014)

These resources are **endorsed** by Cambridge Assessment International Education to support the full syllabus for examination from 2019.

Authors: David Weatherly and Nicholas Sheehan

Provide in-depth coverage of the Environmental Management syllabus and inspire students through real-life applications. This resource also offers full coverage of the O Level syllabus.

#### **Student's Book**

- Provide a clear focus for students with an integrated approach to the subject
- Consolidate understanding with questions throughout to check and confirm knowledge
- Encourage students to think for themselves and experiment with a major focus on problem solving and investigations
- Deepen understanding for all students with real-life case studies

#### **Teacher's Guide**

- Ensure full coverage of the syllabus with overviews of each topic and links to other topics highlighted to assist with medium- and long-term planning
- Match lessons to the syllabus learning outcomes with a detailed scheme of work
- Extension content and activities, lesson plans and more detailed case studies included

#### Collins Connect

 Supports front-of-class teaching and enables students to access material from the Student's Book at home

# Cambridge International AS & A Level Science

(9700/9701/9702)

These resources are **endorsed** by Cambridge Assessment International Education to support the full syllabuses for examination from 2022.

**Biology Authors:** David Martindill, Mike Smith and Michael Smyth **Chemistry Authors:** Sunetra Berry, Lyn Nicholls and Andrew Page **Physics Authors:** Chris Bishop, Carol Davenport, Richard Grimmer, Lynn Pharaoh and Michael Smyth

Allow students to develop and strengthen practical skills in a range of contexts, deepen understanding of key concepts and provide opportunities to draw connections between topics in Biology, Chemistry and Physics.

#### **Student's Books**

- Provide a clear emphasis on developing practical skills and handling, applying and evaluating data to equip students for a wide range of careers and further study
- Allow students to reflect on previous learning with prior understanding reviews, whilst end-of-chapter mind maps provide a summary of learning covered
- Build students' self-awareness by encouraging them to use questions and opportunities for reflection throughout the book
- Offer regular opportunities to handle, apply and evaluate data as well as recap understanding through assignments and experimental skills features
- Challenge and stretch students with exam-style questions and extension exercises

#### **Teacher's Guides**

 Digital teacher support includes syllabus mapping, notes on common misconceptions, a wealth of activities and regular assessments

#### **Biology (9700)**

Topics include: cells, biochemical processes, DNA, natural selection, organisms interacting with their environment and observation and fieldwork.

#### Chemistry (9701)

Topics include: atoms & forces, chemical bonds, energy changes, experiments & evidence, and patterns in chemical behaviour and reactions.

#### **Physics (9702)**

Topics include: models of physical systems, forces & fields, testing predictions against evidence, mathematics as a language and problem-solving tool, as well as matter, energy and waves.

## Provide complete support for primary reading

Collins Big Cat reading books are **endorsed** by Cambridge Assessment International Education to provide support for the reading strand of the current Cambridge Primary English curriculum framework (0844).

Foster a lifelong love of reading with over 1,000 book-banded readers featuring beautiful illustrations and stunning photography for every step of a child's reading journey.

- Develop key reading skills including inference and deduction through comprehensive teaching and assessment support
- High-quality fiction and non-fiction include a variety of genres to support teaching across the curriculum
- The wide range of Big Cat readers ensures learners of all needs and abilities are supported
- Digital resources offer an enhanced reading experience

#### **Guided Reading Handbooks**

Provide a continuous programme of teaching and assessment with in-depth teaching resources to accompany every book in the series.

## **Everything you need to teach a complete systematic synthetic phonics programme**

Deliver a consistent and highly effective approach to teaching phonics with classroom resources and a diverse range of decodable phonics books that support the Little Wandle Letters and Sounds Revised SSP.

- Based on the original Letters and Sounds, but extensively revised to provide a complete teaching programme
- Books match perfectly to the Little Wandle progression and support all the Letters and Sounds phases
- Classroom resources include flashcards (grapheme, picture, word, prompts, tricky words), grapheme charts, wall friezes and Keep-up Teacher's Guides
- Full teaching and assessment support available through a membership available direct from Little Wandle go to littlewandlelettersandsounds.org.uk for full details

for Letters and Sounds

# Shelter on the Go The

#### A secure start to every child's reading journey

Complete support for early reading development with over 300 fully decodable fiction and non-fiction readers expertly aligned to the Letters and Sounds 2007 progression.

- Practise and consolidate words and phonemes, model fluency and check comprehension with the clear and bespoke reading notes provided inside every book
- Integrate phonics into lessons using the two comprehensive Phonics Handbooks with dedicated lesson plans and resource sheets for every book
- Support pupils aged 7+ who need to continue practising phonics with ageappropriate content and accessible text

rk Dan

# Challenge your high-attaining learners with White and Lime Plus banded readers

- Encourage readers with age-appropriate fiction for pupils who are ready for higher reading levels
- Build reading stamina through longer texts and more complex plot structures
- Broaden vocabulary and expand inference and deduction skills ahead of upper primary

## Get reluctant readers hooked on books!

- The world of Shinoy and the Chaos Crew reflects comics, gaming and fantasy, perfect for fostering a love of reading
- This action-packed series offers 48 readers full of dynamic illustrations, thrilling adventures and great storytelling
- Different book types encourage reading for pleasure with humorous fiction, nonfiction and graphic novels

For more information about Collins Big Cat and its range of readers go to collins.co.uk/CollinsBigCat

## Access over 1,000 levelled ebooks with the Big Cat ebook library!

- Support front-of-class teacher modelling and shared reading when used on interactive whiteboards
- Provides a seamless transition between school and home, allowing children to practise reading at the right level without the need to share books amongst pupils
- Easy to access and straightforward to set up

### The Big Cat ebookshelf

Teachers can assign specific books to pupils to be read at home, and track which books have been read by which pupils

Readers can browse all the books from each band and simply click on a book to open it

Easy access to any accompanying resources, such as worksheets

#### Inside the eBook

Fully synced audio for all Early Years and Lower Primary books that can be turned on and off as required

Complete text included, along with guided reading notes and comprehension activities

Display as single or double-page spreads – and toggle between the two

Find out more about Collins Big Cat ebooks at collins.co.uk/bigcatebooks

#### **Collins International Primary English** (0058)

Second Edition

This series is **endorsed** by Cambridge Assessment International Education to support the new curriculum framework (0588) from 2020.

Series Editor: Daphne Paizee

Authors: Catherine Baker, Jan Gallow, Daphne Paizee and Joyce Vallar

Ensure full coverage of the new Cambridge Primary English curriculum framework with Collins International Primary English – a six-level, multi-component course, which has been carefully developed to meet the needs of teachers and students in the international market.

#### **Student's Books**

- Ensure learners follow a clear structure with smooth progression through levels
- Showcase and discuss carefully selected fiction and non-fiction texts
- Offer carefully differentiated activities to develop confidence and competence

#### Workbooks

- Provide additional material for practice and reinforcement
- Link together exercises and activities to corresponding Student's Book
- Offer opportunities to build and develop all key skills

#### **Teacher's Guides**

- Deliver comprehensive lessons with easy-to-follow lesson plans and suggestions for class activities
- Extend and support learning with audio files, slideshows and printable worksheets available from the Collins website

Supports Cambridge Global Perspectives™ with activities that develop and practise key skills.

#### **Cambridge Lower Secondary English** (0861)

Second Edition

This series is **endorsed** by Cambridge Assessment International Education to support the new curriculum framework (0861) from 2020.

Series Editors: Julia Burchell and Mike Gould

Authors: Julia Burchell, Mike Gould, Steve Eddy and Ian Kirby

Build strong foundations in preparation for Cambridge Upper Secondary with Cambridge Lower Secondary English. This skills-focused course offers rich and comprehensive coverage of the new curriculum framework with differentiation to support all learners.

#### **Student's Books**

- Offer a clear focus on improving skills for reading, writing, speaking and listening, with particular emphasis on reading for pleasure
- Each chapter builds from students exploring texts, through scaffolded skills activities to a series of meaningful final tasks
- Showcase varied text extracts with up-to-date international literature and non-fiction texts
- Provide formative and summative assessment with final tasks at the end of each chapter and final chapter with exam-style questions

#### Workbooks

- Consolidate and extend students' learning with engaging practice activities and additional language support
- Designed for self-study or homework
- Write-in format aids revision and allows teachers to monitor students' progress

#### **Teacher's Guides**

- Make the most of resources with a clear lesson-by-lesson approach
- Differentiate easily with suggestions and ideas both in and out of the classroom
- Answers to Student's Book and Workbook questions provided at the back of each guide

Supports Cambridge Global Perspectives™ with activities that develop and practise key skills.

Follows a topic-based structure, written to support cross-curricular learning

You will learn how to:

Think/Talk prompts on each page encourage learners to think critically about the topics

# Speaking to discuss and persuade

When taking part in a discussion, it is important to make informed comments. To be able to do this, you will need to research your topic carefully and expand on your points when asked about them.

Explore

Look at these statements for and against zoos:

For	Against
Zoos educate the public.	Animals suffer stress and boredom.
Zoos save endangered species,	There can be overpopulation of some species, due to pressures to breed 'cute' baby animals.
Zoos have breeding programmes.	Some zoos kill their surplus animals.
Visiting a zoo is a family activity.	Zoos teach children that imprisoning animals for entertainment is acceptable.
Seeing a live animal up close is a personal and memorable experience.	Animals suffer ill health and become unfit.

- Note down two more points that could go in each column of the grid.
- Read through the four pieces of evidence below, then match each piece of evidence to one of the arguments in the grid.

Evidence 1: A study of UK zoos found that 75% of elephants were overweight and only 16% could walk normally, the remainder having various degrees of lameness.

leopards are left in the wild because of poaching and habitat destruction, and they're only being kept alive because of breeding programmes in zoos.

86

Evidence 2: Tigers and lions have around 18,000 times less space in zoos than they would have in the wild.

Evidence 4: At the Saint Louis Zoo, about 400,000 children and adults participate in formal programmes, including classes and Camp KangaZoo each year. Vocabulary

lameness: being unable to walk properly, due to weakness or injury to the

Could you match evidence to all of the points? Why do you think a lack of evidence might be a problem during a discussion?

When you take part in a discussion, other members of the group will question you on your points. You need to be able to back up and explain your arguments clearly.

How could the following exchange between two students be improved?

Farah: Why do you think that zoos should be closed down, Akeem? Akeem: I think they should be closed down because animals are locked up and they get bored.

Rewrite Akeem's response, adding evidence to support his point. Begin with the phrase, 'For

Look at this example discussion topic:

In a group, discuss and answer the question: Should we ban zoos?

Decide what you might need to find out in advance so that you could take part successfully in the discussion. Make a list of points to research.

In a group discussion, someone needs to act as the chairperson. In order to be a good chairperson, you need to have questions ready to ask. You also need to be able to encourage all members of the group to take part.

The following are good leadership skills in a discussion:

- Initiating: 'Right, let's get started, do we agree with this statement?'
- Asking questions: 'How many zoos have been prosecuted for poor conditions?'
- . Involving others: 'What do you think, Bill?'
- Summarising: 'Going back over what we have all said, it is clear that...'

chairperson: the leader of a group discussion or meeting

Speaking and listening

# **Cambridge IGCSE™ English**

(0500/0990/0524)

These resources are **endorsed** by Cambridge Assessment International Education to support the full syllabus for examination from 2020.

Series Editor: Julia Burchell

**Authors:** Julia Burchell, Mike Gould, Keith Brindle, Steve Eddy, Ian Kirby, Claire Austin-Macrae, Nigel Carlisle, Joanna Fliski, Robin Wilson and Elizabeth Walter

Show students how to progress with a clear structure that moves from building key reading, writing and technical skills to applying these skills to specific question types and coursework tasks.

# **Student's Book**

- Help students to measure their progress with Check Your Progress features whilst annotated responses show them how to improve
- Offer plenty of practice opportunities with end-ofchapter questions and two complete practice papers
- Build confidence in speaking and listening with clear guidance, activities and discussion tasks

### Workbook

- Set homework easily and offer extra support with a clear correspondence between the Workbook and Student's Book
- Offer practice of the key skills, covering teaching points in more depth and with more scaffolding
- Build students' writing stamina and fluency for all the writing forms and purposes with exam-style question tasks

# **Teacher's Guide**

- Support students' progress with teaching sequences moving from building the key reading and writing skills to applying these skills to assessments and coursework tasks
- Save time on planning and preparation with a two-year scheme of work, differentiated lesson plans, worksheets and PowerPoints for every two- or four-page section of the Student's Book

# Cambridge IGCSE™ Literature in English

eBook

(0475/0992/0427/2010/0408)

These resources are **endorsed** by Cambridge Assessment International Education to support the full syllabus for examination from 2020.

Series Editor: Anna Gregory

**Authors:** Anna Gregory, Mike Gould, Alexandra Melville, Kurt A. Johnson and Chris Green

Introduce students to the fundamental concepts of literary study and provide support in applying them to poetry, prose and drama. This resource also supports the Cambridge

O Level and the Cambridge IGCSE™ World Literature syllabus.

# **Student's Book**

- Help students progress by teaching the underlying skills and concepts before applying them in passage-based, discursive and unseen tasks
- Ensure students can measure their progress with Check Your Progress features, while annotated responses show them how to improve
- Support students with clear differentiation: introductory chapters build learners' confidence, the main chapters offer greater depth, while extension lessons help students reach their full potential
- Engage students with rich, varied text extracts from a variety of periods and cultures

# **Teacher's Guide**

- Follow the structure of the Student's Book, moving from building the key skills in comprehension, close analysis and interpretation to applying these skills to specific exam and coursework tasks
- Save time on planning and preparation with a twoyear scheme of work and differentiated lesson plans, worksheets and PowerPoints for every two- or four-page section of the Student's Book
- Adapt the resources to classroom needs with printable PDFs and editable
   Word and PowerPoint files

# Cambridge International AS & A Level English Language (9093)

This resource is **endorsed** by Cambridge Assessment International Education to support the full syllabus for examination from 2021.

Series Editor: Lisa Small and Tony Fleming

**Author:**: Beth Kemp

Build skills and knowledge in a clear sequence and help students to apply skills to a range of language tasks, with up-to-date coverage of the syllabus topics and a stimulating range of international texts.

# **Student's Book**

- Refresh students' understanding of key concepts such as audience, purpose and form, and of elements of language including sentences and clauses
- Build writing and analytical skills by introducing students to different modes of analysis and the conventions of different writing forms and purposes
- Explore the relevant linguistic theories and help students to apply these ideas in their own arguments and analysis of texts, transcripts and data
- Offer step-by-step support for responding to a range of tasks with sample responses at different levels to help students understand how to improve
- Build confidence for assessment with complete examstyle practice papers
- Encourage an active approach to learning by asking students to discuss, analyse and apply the ideas they are learning about, and to experiment with different techniques in their own writing
- Provide engaging examples to analyse and stimulus for debates with a rich variety of texts from around the world
- Free editable scheme of work and answer key available online

# **ENGLISH (AS AN ADDITIONAL LANGUAGE)**

# Cambridge IGCSE™ English (as an Additional Language) (0472/0772)

These resources are **endorsed** by Cambridge Assessment International Education to support the full syllabus for examination from 2023.

Authors: Rebecca Adlard, Lucy Norris and Tom Ottway

Build confidence in English with a carefully structured course that allows for reinforcement and progression at every stage. Develop practical language skills with accessible content planned around real-world, topic-based units.

# **Student's Book**

- Clear, colourful layout with topic-based units allows language learning and skills development to be taught in real-world contexts
- Cater for students with little formal experience of English with plenty of opportunities for recap and revision
- Fully cover all four skills (reading, writing, listening and speaking) in a skills-based communicative approach
- Enable students to move from receptive interaction at the start to active production of language by the end of each unit
- Audio files provided for listening comprehension exercises and to help develop oral fluency

### Workbook

- Offer further practice and reinforcement of grammar, vocabulary and language skills
- Follow the topic-based units of the Student's Book
- Consolidate and reinforce language with a variety of graded exercises

# **Teacher's Guide**

- Save time with clear and concise teaching notes and support material to help prepare, plan and manage lessons
- Help assess English levels with a diagnostic tool at the start of the course
- Differentiated activity suggestions meet the needs of less confident students as well as students who need an extra level of challenge

# **Cambridge IGCSE™ French**

(0520/7156)

These resources are **endorsed** by Cambridge Assessment International Education to support the full syllabus for examination from 2021.

**Authors:** Séverine Capjon, Stuart Glover, Amandine Moores, Robert Pike and Oliver Gray

Provide comprehensive coverage of the Cambridge IGCSE French syllabus whilst building confidence in language skills. With a clear structure and engaging content, the topic-based units allow for language and skills to be taught in real-world contexts.

# **Student's Book**

- Cover all four skills (reading, writing, listening and speaking) in a skills-based communicative approach
- Provide plenty of opportunities for practice, consolidation and revision, with exam-style questions included
- Encourage students to reflect on their progress with Check-up and Review sections
- Offer stimulating, thought-provoking and enjoyable insights into the culture and society of Francophone countries with the Français en action section
- Develop oral fluency with downloadable audio files which include listening comprehension exercises

### Workhook

- Provide additional material for skills development and language practice following the structure of the Student's Book
- Consolidate and reinforce language learning, including additional writing and speaking practice in exam-style activities

# **Teacher's Guide**

- Prepare, plan and manage lessons effectively with clear and concise notes for all units
- Gain inspiration from a useful guide on how to work with mixed-ability classes, with differentiated support and activity suggestions throughout
- Use the Introductory unit as a diagnostic tool at the start of the course to assess knowledge levels

(0530/7160)

These resources are **endorsed** by Cambridge Assessment International Education to support the full syllabus for examination from 2021.

Authors: Katie Foufouti, Ana Kolkowska, Libby Mitchell and Charonne Prosser

Develop confidence through a clear structure and engaging content with topic-based units that give the opportunity for language learning and skills development in real-world contexts.

# **Student's Book**

- Cover all four skills (reading, writing, listening and speaking) in a skills-based communicative approach
- Offer opportunities for practice, consolidation and revision throughout the course, with exam-style questions included
- Encourage students to reflect on their learning and direct their own progress at the end of each unit
- Provide thought-provoking and enjoyable insights into the culture and society of Spanish-speaking countries with the El mundo hispanohablante sections in each unit
- Develop oral fluency with downloadable audio files which include listening comprehension exercises

# Workbook

- Provide students with practice activities to reinforce, consolidate and extend language learning and skills development
- Each unit contains additional writing and speaking practice in the form of exam-style activities

# **Teacher's Guide**

- Prepare, plan and manage lessons effectively with clear and concise notes
- Provide support and activities throughout with a useful framework for working with a mixed-ability class
- Use the introductory Student's Book unit as a diagnostic tool at the start of the course to assess knowledge levels

# Cambridge International AS & A Level Geography

(9696)

These resources are **endorsed** by Cambridge Assessment International Education to support the full syllabus for examination from 2018.

**Authors:** Barnaby Lenon, Iain Palôt, Robert Morris, Rebecca Kitchen and Andy Schindler

Support students in obtaining the knowledge, understanding and skills to help them succeed in their geographical studies. This resource covers all the core syllabus topics as well as the physical and human geography options.

# **Student's Book**

- Help students develop an understanding of complex topics and the inter-relationships between processes
- Inspire learning with a wealth of maps, diagrams and infographics
- Engage students with up-to-date case studies from around the world
- Encourage exploration and interpretation with engaging infographics showing geographical patterns and data illustrated through maps and graphics
- Additional downloadable resources contain innovative ideas to deepen students' understanding and provide support in areas where some concepts are more challenging

river may have a value above 4.0.

A meander is the term used for a bend in the river with a simuosity greater than 1.5. Though no agreed explanation for their formation occurs, it is gener considered to relate to the energy balance of the river and not the result of an obstruction within the channel or floodplain.

Meanders have an asymmetric cross section (Figure 2.3). On the outside of the bend, where flow is fasted, revision depens the channel. On the inside of the bend, where flow is slower, deposition occurs. Helicoidal flow occurs where surface water flows towards the outer banks while the bottom flow is towards the inner bank. Variations in the flow create differences in the river cross sections. The most characteristic features of meanders are river cliffs and slip off slosges or point base.

River cliffs are formed on the outside of the bend where erosion is greatest. The combined effect of frydraulic action and abrasion weaken the riverbank causing it to collapse. Over time a steep bank will be formed with some of the collapsed material remaining on the riverbed.

Comerciey, on the inside of the manafer bend where discharge is at a minimum and rification is at largested, deposition is greated. Ediments occumilates to create a gentle sloping bar known as a sile-off slope or point bar. The particles are usually graded in size with the largest material large found on the upsterm sade of the bar. Riffles and pools are a sequence of alternating first and slow flows as a result of the differing energy states of the river. Riffles are shallow areas of fast flowing ongrenated water. Pools are deeper areas with slow moving water.

The meander wavelength tends to be 10 times the channel width (λ = 10 - 14 W.
 Riffles and pools are spaced 5-7 times the channel width (riffle spacing = 5 - 7 W or = ½ λ).

# **Cambridge IGCSE™ Physical Education** (0413/0995)

These resources are endorsed by Cambridge Assessment International Education to support the full syllabus for examination from 2019. Collins Connect has not been through the Cambridge International endorsement process.

Authors: Andrew Dean, Denry Machin, Mark Gardiner and James Beere

Offer comprehensive coverage of the Cambridge IGCSE PE syllabus with the only published course available.

# **Student's Book**

- Deepen students' knowledge and understanding of key topics through the clear and concise explanations given and the contexts selected
- Support students in learning a range of skills, such as how to build self-awareness and how to reflect on their
- Encourage confidence and security in understanding key topics
- Enable students to review, record and evaluate their work
- Provide thorough preparation and monitor learning using the Learning Log and Check Your Progress features

# **Teacher's Guide**

- Assess students' progress easily with clear syllabus assessment objectives
- Adapt the Student's Book to suit the specific needs of each learner
- Help students consolidate their learning with photocopiable handouts

# Collins Connect

- Interactive activities, to reinforce understanding of key syllabus topics
- Video clips on syllabus-related topics and the impact of these on sporting performance
- Exam-style questions written by the authors, with exemplar answers
- Downloadable Teacher's Guide containing learning sequences and photocopiable handouts

# **Cambridge International AS & A Level Sociology** (9699)

This resource is **endorsed** by Cambridge Assessment International Education to support the full syllabus for examination from 2021.

Series Consultant: Michael Kirby

**Authors:** Michael Haralambos, Martin Holborn, Steve Chapman, Pauline Wilson, Tim Davies, Laura Pountney and Natalie Meadows

Provide international coverage of the syllabus, written by best-selling Sociology authors. It encompasses a range of different societies and contemporary issues helping students to apply sociological ideas to the world today.

# **Student's Book**

- Present the latest research and theories, mapped to the Cambridge syllabus
- Offer the depth, detail and clarity that students need to analyse and evaluate at the highest levels, while regular Summary and Key Terms boxes help consolidate understanding
- Develop students' interpretation, application, analysis and evaluation skills with a range of activities ideal for classroom use, including exam-style questions and sample responses at different levels to show students how to improve
- Bring students closer to the practice of sociology with the unique Now and Then feature in which leading sociologists, from Paul Willis to Carol Smart, reassess landmark studies in their own words
- Help students to visualise and apply sociological ideas and theories with high-impact images
- Clearly map content to the syllabus and summarise what is covered in each unit of the book with the free, editable scheme of work available online

# **Webinars**

Our free Collins International webinars are designed to bring the training to you wherever you are in the world. Led by speakers with years of experience in their fields on a variety of teaching and learning topics and a range of subjects and levels, we're certain there will be something here to interest you.

Register for our latest webinars collins.co.uk/webinars

We believe that choice is essential, and we put that belief into action by offering a wide variety of resources for you to consider. Therefore, the only way we would want you to make an informed choice is through honesty and authenticity from us.

# This is who we are, what we stand for and why we care:

# Consistent

We have been at the forefront of market-leading educational materials for over 200 years, a tradition that we're proud of and work hard to keep. Our founder believed that education should be for all, and this we keep close to our hearts today.

# **Open**

We believe in openness and honesty, especially when it comes to your time. That's why our team is on hand to answer any questions you have and help you select the best educational materials.

# Lively

Our products reflect the passion we have for what we do – lively, enthusiastic and fun. We think it's a great way to work and an even better way to learn.

# **Learners**

The learners of today are the leaders of tomorrow and are at the heart of everything we do. We think about our educational materials carefully to ensure they are friendly and engaging for all learners.

# **Inclusive**

On every level, we are committed to inclusivity for our readers, our colleagues and our distributors. We believe this is the only way to create educational materials for the future for all abilities and cultures.

# Need

We've listened to teachers to make sure our educational materials are right for schools and educators today, and we promise to keep doing so.

# **Supportive**

In times of change and uncertainty, we've been proud to offer support for schools and teachers all over the world. We're always on hand to help however we can.

# TERMS AND CONDITIONS

Sample Copies: We offer sample copies to schools who would like to review our titles for adoption. Our samples are free of charge, without postage charge and without a request to return them to us. We reserve the right not to send a sample copy if we believe it is not being reviewed for adoption. If you would like to request a sample copy please contact us at collins.international@harpercollins.co.uk

Prices: Prices are correct at the time of going to press. Collins reserve the right to change these prices without further notification. Offers are not available in conjunction with any other offer and while stocks last. Prices listed are without VAT. VAT is applicable to software and digital subscription products and is applied at the current rate. There is no VAT on books. Network licences allow you to use the resources across your school. Home use licences allow students and teachers to access the resources from home only.

Postage and Packing: Sample copies are supplied free of charge and without postage and packaging charges. Please contact us at collins.international@harpercollins.co.uk to find out about postage charges incurred on direct orders from your country.

If you would like to find out more about Collins Online Learning, or order the resources for your school, please contact your sales representative or email collins.international@harpercollins.co.uk.
